

OUR EXPERTISE

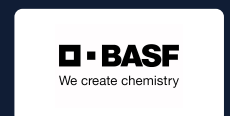

Compliance & Audit

Know the obligation. See the evidence.
Close the gap.

Compliance becomes difficult when obligations, documents and decisions sit with different teams. Karma helps businesses understand the scope, review the evidence and make the next action clear—across establishments, contractors and operating locations.

CLIENT RELATIONSHIPS ACROSS KARMA

SCOPE & DELIVERABLES

The work, made practical.

Establishment compliance

Map the location and operating context to the statutory work, registers, returns and records in scope.

Labour and vendor audits

Review submitted documents, record observations and distinguish missing evidence from corrective action.

Governance and risk controls

Connect responsibilities, review points and open issues to an agreed operational process.

Workplace compliance

Discuss PoSH and other workplace requirements as a defined workstream, with suitable documentation and support.

WHAT YOU CAN WORK WITH

- A location and entity scope with named contacts
- A document request and evidence index
- A record of observations and clarifications
- A prioritised action plan with responsibilities
- Review and closure records for the agreed work
